Agencies and Individuals Consulted

A Notice of Intent (NOI) was published in the Federal Register, 66 FR 11184, on October 3, 2002 and is also available on the KSC website [http:// eis.ksc.nasa.gov/index.cfm](http://eis.ksc.nasa.gov/index.cfm). The NOI was to prepare an environmental impact statement and conduct scoping for the National Aeronautics and Space Administration's (NASA) International Space Research Park (ISRP) project. This Draft Environmental Impact Statement (DEIS) for the ISRP project is available for review and comment by Federal, State, and local agencies and the public. The public review and comment period will close 45 days from the publication of the U.S. Environmental Protection Agency's (EPA) Federal Register notice of availability (NOA) or NASA's NOA, whichever is later. Timely comments will be considered during the preparation of the Final EIS. NASA has mailed copies of the DEIS directly to agencies, organizations, and individuals who may have interest in environmental impacts and alternatives associated with the ISRP project.
